## **1. NATURE OF OPERATIONS AND GOING CONCERN**

Visionary Metals Corp. (formerly Visionary Gold Corp.) (the "Company" or "Visionary") was incorporated on August 14, 2000 under the *Business Corporations Act* (British Columbia) and trades on the TSX Venture Exchange under the symbol "VIZ". The Company changed its name from Visionary Gold Corp. to Visionary Metals Corp., effective on July 10, 2023. Its registered office is 4<sup>th</sup> Floor, Unit #407, 325 Howe Street, Vancouver, BC V6C 1Z7.

The Company is a junior exploration company and is focused on acquiring and developing projects.

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. The Company incurred a net loss of \$155,529 for the six months ended December 31, 2024 (year ended June 30, 2024 – \$673,882). To date, the Company has not earned significant revenues and has accumulated losses of \$14,595,528. The continuation of the Company as a going concern is dependent upon the ability of the Company to obtain necessary equity or other financing to continue operations, and/or to attain sufficient profitable operations.

There are material uncertainties that may cast significant doubt about the appropriateness of the going concern assumption. The current market conditions and volatility increase the uncertainty of the Company's ability to continue as a going concern given the need to both curtail expenditures and to raise additional funds. The Company is experiencing, and has experienced, negative operating cash flows. The Company will continue to search for new or alternate sources of financing but anticipates that the current market conditions may impact the ability to source such funds. The outcome of these matters cannot be predicted at the present time. These factors indicate the existence of material uncertainty that casts significant doubt about the Company's ability to continue as a going concern.

Due to the unfolding crisis in the Ukraine the Company may be exposed to new risks and uncertainties. In our case this is mainly a capital markets risk relating to financing and to a lesser extent potential higher energy related costs.

These consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. If the going concern basis was not appropriate for these consolidated financial statements, adjustments would be necessary in the carrying value of assets and liabilities, the reported expenses and the statements of financial position classifications used.

## **2. BASIS OF PREPARATION**

### **(a) Statement of compliance with IFRS**

These consolidated financial statements have been prepared in accordance and in compliance with IFRS as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

### **(b) Basis of preparation and measurement**

Depending on the applicable IFRS requirements, the measurement basis used in the preparation of the consolidated financial statements is cost, net realizable value, fair value or recoverable amount. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

## **3. MATERIAL ACCOUNTING POLICY INFORMATION**

These unaudited condensed consolidated interim financial statements have been prepared in accordance with IFRS as issued by the IASB on a basis consistent with those followed in the Company's most recent annual financial statements for the year ended June 30, 2024.

These unaudited condensed consolidated interim financial statements do not include all note disclosures required by IFRS for annual financial statements and therefore should be read in conjunction with the annual financial statements for the year ended June 30, 2024. In the opinion of management, all adjustments considered necessary for fair presentation of the Company's financial position, results of operations and cash flows have been included. Operating results for the six-month period ended December 31, 2024 are not necessarily indicative of the results that may be expected for the current fiscal year ending June 30, 2025.

## **4. EXPLORATION AND EVALUATION ASSETS**

Title to mining properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mining properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to its properties is in good standing.

### King Solomon Nickel and Cobalt Prospect, including the Black Rock Gold-Copper Prospect and the Tin Cup Copper Prospect

During the year ended June 30, 2023, the Company staked a new project specializing in exploration of gold and copper, known as the Black Rock Gold-Copper Prospect ("Black Rock") in Jeffrey City, Wyoming. The Company also staked the Tin Cup Copper Prospect ("Tin Cup") specializing in exploration of copper, and King Solomon Nickel and Cobalt Prospect ("King Solomon Projects") specializing in exploration of nickel and cobalt that is located at the west-northwest of Black Rock.

As of December 31, 2024, the Company had a refundable environmental bond of \$154,970 (US\$107,700) (June 30, 2024 - \$147,409 (US\$107,700)).

As of December 31, 2024, the Company had capitalized \$4,613,290 (June 30, 2024 - \$4,029,893) in exploration and evaluation expenditures related to the King Solomon Projects, including Black Rock and Tin Cup.

## **4. EXPLORATION AND EVALUATION ASSETS *(continued)***

### Wolf Gold Project

On September 4, 2020, the Company, through its wholly-owned subsidiary LCC, entered into a lease assignment agreement with a private company located in the state of Wyoming, whereby LCC agreed to assume rights, title, interests, obligations and liabilities with respect to two leases, dated June 12, 2020 and July 6, 2020, with the lessors.

During the year ended June 30, 2022, the Company elected not to continue the Lease Assignment Agreement and wrote-off all deferred costs incurred.

On March 23, 2021, the Company entered into a mining lease agreement with an option to buy certain mining claims in Fremont County, Wyoming, which consisted of three unpatented mining claims. The initial term of the agreement was to expire on March 23, 2026, subject to the option of the Company to extend the expiry date for a further five-year period.

During the year ended June 30, 2022, the Company elected not to continue the mining lease agreement and wrote-off all deferred costs incurred.

On May 8, 2021, the Company entered into a purchase and sale agreement with Innovation Exploration Ventures LLC and an individual to acquire certain mining claims and data for \$99,000 and the issuance of 550,000 common shares of the Company at a deemed price of \$0.18 per share.

During the year ended June 30, 2023, the Company elected not to continue the Wolf Gold Project, and the deferred costs incurred to date were impaired to \$1.

During the year ended June 30, 2024, the Company determined it will not maintain any mining claims related to the Wolf Gold Project and wrote the project down to \$nil (June 30, 2023 - \$1).

As of December 31, 2024, the Company had a refundable environmental bond of \$32,231 (US\$22,400) (June 30, 2024 - \$30,659 (US\$22,400)).

### Majuba Hill

On September 20, 2020, the Company signed a Debt Settlement Agreement (the "DSA") with regards to its 2017 lease agreement on the Majuba Hill property in Pershing County, North Central Nevada. Pursuant to the DSA, the parties agreed and the Company paid US\$50,000 as full and final settlement.

As a result of ceasing activities on the Majuba Hill property, the Company is required to restore the site. The Company has recorded a provision for disposal costs of \$4,005 (June 30, 2023 - \$4,005).

As of December 31, 2024, the Company had a reclamation bond of \$6,394 (US\$4,672) with the Bureau of Land Management (June 30, 2024 - \$6,394 (US\$4,672)). On September 23, 2020, the Company engaged a consultant to commence reclamation work at Majuba Hills and the reclamation work has been completed at a cost of US\$8,500. Further work is being undertaken to establish vegetation at the site, which is estimated to take three to four years.

On November 20, 2024 the Bureau of Land Management notified the Company that a refund of \$6,394 (US\$4,672) would be issued.

## 7. PETROLEUM AND NATURAL GAS PROPERTIES

In March 2011, the Company (the "farmee") entered into a Farmout and Participation Agreement with a private company (the "farmer") in the business of exploring for and producing oil, gas and coal. Pursuant to the agreement, the Company earned the farmer's pre-farmout 25% working interest in two (test) wells located in Saskatchewan and can earn a 25% working interest if the farmer licenses contingent locations in the farmout and mutual interest lands (as defined). The farmer was appointed the initial operator ("operator 1") of the wells with respect to all operations conducted by both parties. In December 2017, the farmer transferred and conveyed its entire interest in the agreement to another private company ("operator 2") in the business of consolidating undervalued, under-exploited, mature and producing oil and natural gas assets.

During the year ended June 30, 2017, the Company changed its focus from oil and gas exploration and production to mineral exploration and, accordingly, wrote off the carrying value of its oil and gas properties. The company continued to hold a 25% working interest in four oil wells and two gas wells (one active oil well, two suspended gas wells and three abandoned oil wells). Operations relating to the active and completed wells were conducted by operator 2 and operations relating to the other wells are conducted by operator 1.

On a monthly basis, the Company received a joint interest billing from operator 2 for its 25% share of revenue earned and operating expenses incurred. On a periodic basis, the Company received a joint interest billing from operator 1 for its 25% share of abandonment and reclamation costs incurred and any annual rental obligations. On an annual basis, effective June 30<sup>th</sup>, the Company obtains an 'Evaluation of Interests' report from an independent company specializing in reserves evaluations for oil and gas companies. This report includes a NI 51-101 compliant estimate of the net present value of future net revenue (before income taxes) attributed to the proved plus probable reserves for the active oil well.

During the quarter ended March 31, 2021, by way of a court approved sales and investment solicitation the oil properties were sold to a third party. On February 11, 2021, the Company entered into a Quitclaim, Surrender, Conveyance and Assignment of Interest with respect to three abandoned gas wells and made a payment of \$14,566 to satisfy any and all obligations, including decommissioning obligations.

The suspended gas well did not receive any interest from potential buyers and had therefore been sent to the Orphan Well Association of Saskatchewan by the receiver. The active oil well is anticipated to return to production or to be sold to the same third-party buyer.

The decommissioning obligation is estimated based on the Company's working interest in wells that have not been reclaimed, the estimated cost to abandon and reclaim the wells and the estimated timing of the costs to be incurred in future periods. The Company estimates the undiscounted cash flows related to its decommissioning obligation is approximately \$66,031 (June 30, 2024 - \$66,031). The properties that remain subject to decommissioning obligations are the gas well sent to the Orphan Well Association and the active oil well. The fair value of this obligation was calculated using risk free rates between 3.42% to 4.02% (2023 – 3.69% to 4.87%), an inflation rate between 2.43% to 3.42% (2023 – 2.39% to 4.00%) and the expectation of being fully abandoned by 2036. The estimated decommissioning obligation as at June 30, 2024, 2023 and 2022 is as follows:

Balance, June 30, 2022	\$	67,860
Reclamation costs		(8,112)
Change in estimated decommissioning obligation		(7,632)
Balance, June 30, 2023 and December 31, 2023		52,116
Change in estimated decommissioning obligation		4,881
Balance, June 30, 2024 and December 31, 2024	\$	56,997

## **12. FINANCIAL INSTRUMENTS**

The fair value of the Company's cash, accounts payable and accrued liabilities and loan payable approximate their carrying values due to their current nature.

The Company's financial instruments are exposed to certain financial risks, including currency risk, credit risk, liquidity risk, interest risk and commodity price risk.

### **(a) Currency risk**

The Company's property interests in the United States made it subject to foreign currency fluctuations and inflationary pressures which may have adversely affected the Company's financial position, results of operations and cash flows. The Company is affected by changes in exchange rates between the Canadian Dollar and foreign functional currencies. The Company does not invest in foreign currency contracts to mitigate the risks.

### **(b) Credit risk**

The Company's cash is held in a Canadian and US financial institutions.

Accordingly, the Company believes it is not exposed to significant credit risk.

### **(c) Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure and periodic financial support from management. Accounts payable and accrued liabilities of \$436,850 and loan payable of \$244,945 are due within the current operating year. As at December 31, 2024, the Company had cash of approximately \$91,086 to meet these obligations.

### **(d) Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has no interest bearing debt other than the shareholder's loan with a fixed interest rate.

### **(e) Commodity Price Risk**

Commodity price risk is the risk that future cash flows will fluctuate as a result of changes in commodity prices, affecting results of operations and cash generated from operating activities. Such prices may also affect the value of exploration and development properties and the level of spending for future activities. A 1% change in price will increase/decrease net income (loss) by an immaterial amount.

The Company did not have any commodity price contracts in place as at or during the six months ended December 31, 2024.

**12. FINANCIAL INSTRUMENTS (continued)**

IFRS 7 establishes a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value as follows:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.

Level 2 – Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the market place.

Level 3 – Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The following table sets forth the Company's financial assets classified as subsequently measured at amortized cost as at December 31, 2024 and June 30, 2024.

<b>As at December 31, 2024</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>

### **13. MANAGEMENT OF CAPITAL RISK**

The Company manages its shareholders' equity as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of its mineral properties and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets or adjust the amount of cash and short-term investments.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. The Company is not subject to any externally imposed capital restrictions. There has been no change in the Company's capital management during the period.

### **14. SEGMENTED INFORMATION**
